IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

Applicant(s): Williams

Application No.: 10/568,520

Filed: 2/14/2006

Title: Dry Chemical System for Extinguishing Difficult Fuel or Flammable Liquid Fires in an Industrial Tank w/ Roof Creating Space Above the Liquid

Attorney Docket No.: 50262

Group Art Unit:

Examiner:

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Dear Sir:

Herein we file this supplemental Information Disclosure Statement. The first three US patent documents and the foreign patent document were cited in a Supplementary European Search Report issued in European Patent Application No. 04781456.1, which is the European national phase of PCT/US04/26762, which is the parent application of the instant application.

No opinion is offered as to their relevancy or whether they comprise prior art. They are disclosed herein because they appear at least relevant as background and in case they are deemed relevant or otherwise found helpful to the examiner.

The fourth US reference, Reg. No. 5, 573,068 was cited in the Search Report and Written Opinion for PCT/US04/26762, was responded to in Applicant's 2nd Preliminary Amendment originally filed 4/18/2006 and re-filed 2/14/2007, and is included in this IDS for ease of reference.

Respectfully Submitted,

Sue Z. Shaper
Attorney for Applicant
